1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Theodore Shiells on 4/6/5

The application has been amended as follows:

Claims 11-21 are cancelled as drawn to a nonelected invention.

2. The following is an examiner's statement of reasons for allowance: Primarily as argued by applicant. It is noted that claim 1 recites "an electrically isolated plug" and elsewhere claims "lockable electrically isolated plug", while the preamble, line 1 recites "both nonlocking-type electrically isolated plugs and lockable-type electrically isolated plugs". It is here determined that the lockable electrically isolated plugs is clear as the same as a lockable-type electrically isolated plug, and that electrically isolated plugs refers to either of the lockable or nonlocking plugs. Claim 1 reciting sockets further being asymmetrical means that one of the sockets lacks any symmetry comporting with applicant's argument that the Kodama sockets are symmetrical.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
